326.7 DOC ACTIVATION LEVELS

The Department's DOC operates on 3 general levels or phases of activation/operation:

1. Level 3 (Heightened Awareness)
 - (a) Level 3 is the lowest level of activation and may require the least amount of personnel. This level requires the Department Commander to be aware of potential situations and make any required notifications outlined in documentation of the activation. This level can be as low as routine day-to-day operations or a virtual activation in which positions are designated and personnel are identified, however staffing may not be immediately required.
2. Level 2 (Modified Tactical Alert)
 - (a) Level 2 is a moderate level of activation that may require a pre-determined cadre of personnel or an OCSD specific Incident Management Team (IMT) to operate. These personnel shall fill designated DOC positions based on the type of hazard. An additional IMT may be designated for shift relief if an event extends into multiple operational periods.
3. Level 1 (Tactical Alert)
 - (a) Level 1 is the full activation of the OCSD Department Operations Center. This level may require a team of eight employees or an OCSD specific Incident Management Team (IMT) to operate. These personnel shall fill positions designated by the DOC Director and may require deployment to a pre-determined location of mobile command vehicle. The DOC may become the single point of ordering for all of the Department. Continued communication with the Department Commander may be necessary for level 1 activations.

These activation levels are consistent with the Standardized Emergency Management System (SEMS), the California Office of Emergency Services (CalOES), and the Orange County and Operational Area EOC activation levels derived from the County of Orange and Orange County Operational Area Emergency Operations Plan (EOP).

326.8 DOCUMENTATION

Activity logs for each staffed DOC position shall be required. These documents are critical and shall be given the utmost priority. Logs shall be accurately maintained for the duration of the DOC activation.

Activity logs shall be used to document all actions taken during the course of the DOC activation, and the DOC Director shall have the responsibility of ensuring this task is completed.

Documentation surrounding the DOC activation shall be maintained by the Mutual Aid Bureau, pursuant to the Department's records retention policy.
